

Following is information from the [Boulder County Arts Alliance](#) monthly E-Newsletter for **AUGUST 2017**.

New Art Space Directory

Submit your Venue and Art Space and connect with creatives!

Read the [FAQ](#)

The new [Art Space Directory](#) is a matchmaking tool to connect creative people with creative art spaces. Owners and managers of rentable spaces submit listings to the directory, and space-seekers search the directory for opportunities. Use of the BCAA Art Space Directory is completely free of charge for space-seekers, and there are no fees to submit and publish listings.

It contains a list and map of venues with art spaces with photographs and detailed information. A **Venue** is a physical location on the map. It's a building with a unique street address, and contains one or more art spaces. An **Art Space** is a rentable room (hall, auditorium, outdoor area, suite of rooms, or part of a room) at a venue location. The space is the thing you are renting and is what space-seekers are seeking. Art spaces must be associated with a Venue. You must first [create a venue](#) before you can [submit a space](#).

By using your BCAA log-in to our website, you can upload information for your venues and art spaces and make edits any time. You do not need to log-in to browse or search the Art Space Directory.
